Solar Street Light

CB

Through using the highest quality and most advanced solar technology Aptech Solar has reinvented the regular street light. Our solar street lights store free energy from the sun, generating unlimited clean power without being connected to the utility grid. Not only are Aptech Solar's street lights environmentally friendly, they are also more cost-effective and require less maintenance than regular street lights.

CE

SGS

The LY170428 contains one 40W monocrystalline silicon panel with a 16ah lithium ion battery DC 12V. This is our smaller model of street light, which provides ideal outdoor lighting for personal homes, gardens, and businesses.

System Components:

| | |
|---------------|---|
| Solar Panel | Monocrystalline silicon 40W Reverse polarity protection |
| Battery | 16ah Lithium ion battery DC 12V |
| LED | 30W Aluminum alloy IP67 COB source |
| Pole | Height :6m Hot-dip galvanized. Plastic coated, rust proof |
| Lighting Mode | Inbuilt sensitive sensory technology Lighting more than 12 H 3 rainy days backup |
| MOQ | 50 SET |
